

HOW ARE WE ALL? MASKED UP & READY TO GO?

Where to I wonder?

Sorry that no November issue was written, but there was nothing to say other than thanking you all for reporting intermittent water failures, sewage pipe leaks, power breakdowns and yes, potholes.

I am happy to report (well not actually) that you don't have to report potholes anymore. By agreement with the WRRRA it has been decided that potholes should replace speed bumps to control the speed of traffic and thus prevent accidents and save lives, cost of car repair etc. Sounds about right, does it not.

Actually, repair is proceeding very slowly, largely because the council has run out of tar and attempts to pay the supplier have failed. Council says it has paid, the supplier says no funds have been received so one wonders where the money went. If interested read many articles on corruption published recently.

STOP PRESS. Today, December 10, work is proceeding on the large section of Tom Lawrence that had become a dirt road.

DECEMBER 2020

WEAR YOUR MASK

Mediclinic has just announced a doubling of COVID-19 patients. I have observed that there is an increasing number of people in White River streets who are either not wearing masks, or wearing to cover their mouths only. Well, I say do it properly.

You will eventually pick up infection if you don't fully cover your mouth and nostrils, or if you are infected you will spread it to others.

WEAR YOUR MASK PROPERLY

They say we are staring a second wave, with associated lock-down in the face.

IT IS NEARLY CHRISTMAS SO HERE ARE SOME OF THE MORE SERIOUS PROBLEMS THAT FACE US THESE DAYS

Try phoning the local psychiatric hospital

- If you have obsessive compulsions, press 1 repeatedly
- If you are co-dependent, ask someone to press 2
- If you have multiple personalities, press 3, 4, 5 and 6
- If you are schizophrenic, listen carefully & a little voice will tell you which button to press, no-one is going to answer.
- If you are anxious, just press numbers at random
- If you are phobic don't press anything.

A variant of COVID-19 is doing the rounds. Be aware - here are some of the symptoms.

- Causes you to send the same e-mail twice (Done that)
- Causes you to send a blank e-mail. (That too)
- Causes you to send an e-mail to the wrong person. (Yup)
- Causes you to send it back to the person who sent it to you (Ah-ha)
- Causes you to forget to attach the attachment (Done that)
- Causes you to hit SEND before you've finished. (Oh no, not again)
- Causes you to hit DELETE instead of SEND. (Hat that)
- Causes you to hit SEND when you should DELETE (Heck, now what?)

The recently discovered virus is tentatively designated the C-NILE virus

"A lie can go half way round the world before the truth has got its pants on"
- Winston Churchill on Donald Trump -

SOME THOUGHTS ON THE YEAR 2020

I am going to stay up on New Year's Eve, not to see the new year in, but to make sure 2020 leaves

I still cannot believe that people's survival instincts made them stock up on toilet paper.

If I had known that March would have been my last visit to a restaurant, I would have had dessert.

My most stupid purchase of the year was a 2020 planner.

The buttons on my jeans have started social distancing from each other.

Keep in mind that, during the pandemic, no matter how much chocolate you eat, your earrings will still fit.

I never thought that "I wouldn't touch him with a 2 meter barge pole" would become national policy.

Well, that is it. From the Committee, all of you have a great Christmas and New Year but take special care as to how and who with.
